## **NISC® Enterprise Solutions Selected by Nsight Telservices and Ace Communications Group**

**Mandan, N.D., May 16, 2011** — National Information Solutions Cooperative® (NISC), a leading provider of information technology products and services, announced Wisconsin-based Nsight Telservices and Minnesota-based Ace Communications Group have selected NISC's iVUE® solution to meet their information technology needs.

Nsight Telservices serves over 10,000 subscribers in and around the greater Green Bay, Wis. area and provides wireless, business and residential local service, long distance, internet, web hosting and tower erection and maintenance services in the Midwest.

Arlen Thayse, the Billing/OSS Manager at Nsight, said, "Nsight's extensive research and discussions with NISC staff on the functionality of the iVUE software assured Nsight that iVUE was the right software for their billing and operational needs. The very favorable comments from NISC references as well as the relationship with the Shawano location for their Bayland operations were also significant contributors to their decision to select NISC."

Ace Communications Group has members in Minnesota and Iowa with subsidiaries in Michigan. Headquartered in Houston, Minn., Ace serves over 25,000 subscribers in the three states. Ace Communications Group is an independent local exchange telephone company providing local and long distance service, high-speed and dial-up internet service, as well as digital television service.

Darren Moser, Ace Chief Financial Officer, states, "We chose to outsource our CABs processing to streamline operations and focus on our customers, but we chose NISC because of their extensive knowledge, outstanding customer service and their quality products."

### **About Nsight Telservices**

While Nsight has roots in providing quality local telephone service through Northeast Telephone Company, the company has stretched beyond any vision its founders could have imagined. As a major telecommunications entity in the upper Midwest, our growth has been spurred by the changing demands of our customers and their need to partner with a telecommunications provider they can trust. Meeting the needs of our customers in a personalized manner is our top priority and has been at the heart of our organization since its humble beginning in 1910. Providing extraordinary customer service is not only the blueprint for our success but the foundation for our future. Additional information can be found at <http://www.nsigntel.com>.

### **About Ace Communications Group**

Ace Communications Group provides service for 19 exchanges in southeastern Minnesota and northeastern Iowa. Ace also operates three subsidiaries: Ace Telephone Company of Michigan, Inc. in Mesick, Michigan; Ace Link Telecommunications, Inc. in Caledonia, Minnesota and Allendale Communications in Allendale, Michigan. Ace Communications Group is a member-owned cooperative that pays capital credits to its members. For more detailed information about our cooperative status, read our membership information. Additional information can be found at <http://www.acegroup.cc>.

### **About NISC**

National Information Solutions Cooperative (NISC) is an information technology company that develops, implements and supports software and hardware solutions for our Members/Customers. We deliver advanced solutions, services and support to more than 550 independent telephone companies, electric cooperatives and other public power entities in 47 states, one U.S. territory and Canada. NISC is an industry leader providing information technology solutions for consumer and subscriber billing, accounting, engineering and operations, e-solutions, automated mailroom services, bill printing, third-party integration as well and many other IT solutions. NISC has facilities in Lake Saint Louis, Mo., Mandan, N.D. and Shawano, Wis. and employs more than 830 professionals between the three locations. Additional information can be found at [www.nisc.coop](http://www.nisc.coop).
