Glenwood Telecommunications Selects NewCore Wireless for LTE Hosted Switching Solution

*Agreement provides Glenwood Telecommunications ability
To offer wireless services to Nebraska customers*

SAINT CLOUD, Minn. – March 3, 2014 – NewCore Wireless, the leading full-service hosted wireless switching provider, announced today that Glenwood Telecommunications has chosen NewCore Wireless to host the Nebraska carrier's LTE network. Glenwood Telecommunications is a full-service telecommunications provider serving residents and businesses in 12 counties across south central Nebraska.

The new partnership provides Glenwood Telecommunications with the ability to offer wireless services cost effectively through the NewCore Wireless platform. This platform offers an enhanced fixed and mobile-broadband experience enabling higher data speeds and faster access to a wide range of new innovative multimedia applications. The agreement marks the beginning of a new managed services contract between the two companies.

“We look forward to the opportunity of working with NewCore Wireless to host our LTE 4G network services,” said Stan Rouse, General Manager at Glenwood Telecommunications. “We were very pleased with NewCore Wireless’ solution. It provides us with a reliable and managed LTE service, and a clear path to providing next generation services to our customers.”

NewCore Wireless is a full-service hosted wireless switching provider offering solutions to carriers. They provide technology platforms capable of switching 2G (GSM), 3G (UMTS) and 4G (LTE) wireless services, as well as Value Added Services like SMS, MMS, voicemail, prepaid, E911, M2M, CALEA and CMAS that allow small carriers the opportunity to compete on the same level as Tier 1 carriers.

“NewCore Wireless is proud to have been selected by Glenwood Telecommunications as its LTE managed services partner for network operations,” said Albert Kangas, General Manger and COO of NewCore Wireless. “Our LTE solution will allow carriers like Glenwood

Telecommunications to provide LTE in a way that is both cost-effective and customized to fit their specific needs.”

About Glenwood Telecommunications

Glenwood is a full-service telecommunications provider serving residents and businesses in 12 counties across south central Nebraska. We have one subsidiary in Glenwood Telecommunications and two divisions, Glenwood Wireless and Glenwood Computers. Glenwood Telephone Membership Corporation was established in 1957 to provide telephone service to residents around the Blue Hill area. The Company was set-up as a Cooperative and remains that way today. Its mission is to provide exceptional customer service and high quality, cost effective telecommunications. About NewCore Wireless

NewCore Wireless is the leading full-service hosted wireless switching provider offering solutions to carriers. Our Switching Platforms are capable of providing 2G (GSM), 3G (UMTS) and 4G (LTE) wireless services. We also provide Value Added Services like SMS, MMS, voicemail, prepaid, E911, CALEA and CMAS that allow small carriers the opportunity to compete on the same level as Tier 1 carriers. NewCore Wireless was founded in 2008 with the mission of providing innovative technology solutions to rural carriers that deliver scalable, end-to-end solutions. We offer each of our network partners the flexibility to run their own wireless business without the added expense of the core network. The company is headquartered in St. Cloud, MN.
