

Dear Colton Community Members,

Molalla Communications (MCC) would like to personally invite you to come learn more about MCC.

Please accept an exclusive invitation to join MCC Members on Saturday July 30, 2011 3:00 PM at our 54th Annual Meeting followed by our Summer Concert.

MCC recently extended an invitation to your Colton Telephone Company Board to consider a joint venture of Cooperatives. Although your Colton Board expressed disinterest, we would like to extend this offer to you—the members, residents and business owners of Colton Telephone Company. Encourage your Colton Board to join the Molalla Communications Cooperative to better serve you, the members.

MCC has consistently demonstrated our mission statement – “Enriching the Lives of All Those We Serve”. Just one example of the benefits to our customers include capital credit retirement to our membership averaging over \$2.5 million per year throughout the past 4 years – over \$10 million dollars.

We believe Broadband and blazing Internet speeds are the future. MCC provides Colton Schools with 100 Mbps service and Molalla Schools with GigE service. We will continue fiber plant expansions bringing more customers attainable speeds of 100 Mbps or greater. Currently on MCC's network, a minimum of 6 Mbps and up to 20 Mbps is offered for only \$41.95 per month compared with Colton Telephone's 1.5 Mbps priced at \$44.95.

We continue to financially invest in our communities with economic development and sponsorship of local events, schools and athletic programs. Over the last five (5) years, MCC has demonstrated its civic mindedness through plentiful contributions to our communities of over \$100,000 each year. In 2010 alone MCC contributed over \$130,000 back into Molalla, Mulino and surrounding communities we serve.

Over the years, MCC's Annual Meetings have brought fun and food to thousands in our communities.

We invite you to come see for yourself if MCC, our blazing fast Internet speeds, and our community support may enrich your future.

Come enjoy the fun!

See you there,
Molalla Communications
